

## Department of Digital Media

### Web and App Design Certificate of Achievement

Web and App Design Certificate of Achievement requires the successful completion of 5 required courses and 2 elective courses for a total of 25 units.

Web designers are strategic thinkers, producers and technologists whose work intersects design thinking, visual communication, technology and user experience. This program provides foundation design skills and technical planning for web and app design fields, and addresses planning for user's needs, wire framing, and designing prototypes that use optimal parameters, accessibility standards and user experience guidelines. Career opportunities exist within web and app design and development fields, front end web development and design, and multimedia production.

#### REQUIRED COURSES:

DIGM 001 Digital Application Basic (3)  
DIGM 003 Introduction to Graphic Design (3)  
DIGM 014C Digital Illustration: Illustrator (4)  
DIGM 020A Interface Design (4)  
DIGM 086 Portfolio Planning and Review (3)
