

***** EXTERNAL EMAIL *****

Hi Su,

Nice to e-meet you.

Thank you for the ad update. Glad to hear that the dates should work.

Here are the other graphic sizes for social media, our e-blast and website -

Website - Due April 16th (sooner we receive this one the sooner it will go up)
2800x600px

E-blast -
1080x1080px - April 16th
700x400px - April 23rd

Social Media - IG, FB, TW - Due April 23rd
1080x1080px
1080x1920px (IG Story)

Since all of these are fairly small I recommend limiting the amount of text. With the social media posts we can add text in the description and in the e-blast 1080x1080px graphic a text description will accompany it on the side. I've attached a few 700x400px graphics that have done really well in our e-blast to get an idea (more visual-heavy and less words).
